1.0 Server Side Reporting Application

Fisheries Server side application is a tool for working with the Household and Water bodies data collected from multiple locations through the Fisheries Mobile Client application.

It has an easy to use mechanism to analyse data based on different filters.

All the Reports

- can be specified using different criteria
- can be searched for a specific string
- can be downloaded as excel files or pdf files
- can be made available in Hindi or English
- can be printed.

The Server side application is accessible by logging into the website at

www.mspaceapps.in/Fisheries/mspace

1.1 Login into the System

Only registered users are allowed access.

| | | | | | | | 911/2015 |

If the login credentials are correct, the user is given access into the system.

1.2 Survey Reports

Surveys are of two types :

- Household
- Water Bodies

Details about both can be seen by clicking on the square tiles on the Home page or by clicking on the Menu Options on the top of the page.

Viewing of data is possible in two formats

- Tabular Reports
- Tree View

Tabular Report format is the default. Tree View can be seen by invoking the Menu Option provided at the top of the Home screen.

The household survey can be downloaded as an excel file by clicking on the "Download Excel" icon

Individual HouseHolds details can be seen by selecting the Household Id in the leftmost column.

The Household Details shows

- Household Id
- Date & Time
- Owner / HH Name
- Village
- User
- Useful Links
 - Download the report as pdf
 - Download the report as excel
 - View the map of the survey

Search – This can be used to directly see the data for a specific User or any other specific text that can be entered in the Search window.

Clicking on the map link, shows the map of the survey area

Clicking on the HouseholdId link in the left column of the Household Survey shows details of the selected Household.

1.5 Tree View

The Tree View shows all the data in a hierarchical tree structure

The default tree view is collapsed to State Level

On clicking on the + sign each branch expands to District, Block, Village level

HH – indicates the number of House Hold surveys done in that area

WB – indicates the number of Water Body surveys done in that area.

1.6 Reports

Reports Menu option at the top of the home page is an easy to use option to view report of any type

About mSpace Technologies

mSpace Technologies Private Limited is founded by former IIT and IIM graduates with over 80 man years of experience in conceptualizing and implementing Information technology solutions. We provide Mobile Business Advantage to businesses across verticals (Infrastructure, Logistics, Utilities etc) by providing the following guality services:

- Business Consultancy
- Mobile Strategy Solution conceptualization
- Design and Build Mobile Applications and end to end solutions
- Managed Solution Design Expertise Hosting and Maintenance

These solutions are aimed at tracking and optimizing any business process or activity spread across various geographies thereby allowing near realtime monitoring of operations. This results in not only major savings in time, material and management but can also be used to significantly optimize operations through analysis of the data collected.
